**PROPOSED CLAIMS PER PHONE INTERVIEW**

Sir:

Enclosed herewith are proposed amendments according to our phone conversation of October 23, 2002, which took place at approximately 11:30 AM.

In view of the added limitation that the adhesive have a pharmacologically active agent, the term "doped adhesive" is superfluous and thus, deleted.

Further, the limitation directed to the *tensile strength* has been deemed inherent by the examiner and, therefore, incapable of rendering the claims patentably distinct over the cited art. This term is unnecessary and has also been deleted.
